

DEADLY BRITISH GUNFIRE WON A SPLENDID VICTORY—GERMANS
Did Not Even Attempt a Counter-Attack—Russians Stop German AdvanceSTRUGGLE IN POLAND IS
ENVELOPED IN MYSTERY

British Say Decisive Conflict Must Come Soon.

Austrians Are Again Trying To Relieve Przemysl.

(By Times Special Cable.)

London, March 15.—Mystery envelope the progress of Field Marshal Von Hindenburg's latest advance into Poland, but it is the opinion of British observers that the vast forces along the line from the Niemen to the Vistula cannot much longer be kept from making contact, unless the direction of the German offensive undergoes a radical change.

At the present time the meagre information coming through of the operations in the eastern areas indicates that the Germans have fallen back under the guns of Grodno. Further to the south, in the Nawa region, the German advance has been checked, and the Russians are continuing an advance on the northern bank of the Vistula in the direction of Plock.

In the Carpathians the Russians apparently are abandoning their defensive attitude, for they are making desperate counter-attacks on the Austrians with the greatest success, according to official announcements from Petrograd. The region of the principal Russian offensive is near Lwówsko pass. Here the Russians had heavy captures in prisoners and guns. On the other hand Vienna reports the failure of Russian counter-attacks and the taking of many Russian prisoners as a result of bitter night fighting in the Carpathians.

(Continued on Page 8.)

MANY LETTERS FROM THE BATTLE FRONT

A large British mail brought to London for distribution to-day contained letters and post cards from soldiers at the front, as well as many messages from old England, among them all others were sent by the censor, consequently Mr. Fraser does not know just where on the battle front the letter was sent. The card was written on Feb. 25th, which is two weeks ago last. Thursdays, the 13th, Mr. Fraser has been received announcing his continued improvement.

Major W. R. Marshall, writing just from the field, Feb. 21st, says: "Am very fit looking forward to the work of the campaign. We are in good shape and we ought to do well. Very fit and damp, and will be hospital to the British Army."

"Will Campbell, a member of the staff at the front, sent a card, reporting that he is well and is at the front. The card was written on January 19th, and Mr. Forrest received it a week ago. The card read: 'WAS IN THE TRENCHES. After Fraser, city auditor, he received another letter from his son

James A. S. Fraser, of the Fourth Battalion, First Brigade, written just a few days before the Canadians went into action. It was dated January 20th, and all other details were hidden by the censor, consequently Mr. Fraser does not know just where on the battle front the letter was sent. The letter passed through the hands of Lieut. George Ballard of this city, his name being being mentioned in the letter with the censoring. It reads as follows:

February 22, 1915.
My Dear Father—Received a most welcome letter and was sure glad to have from home. I also had a letter from my mother, and was also glad to receive all others. We are all well and happy. The letter was sent to me at church last evening, and this morning when Mrs. Ford awoke she found life extinct. Mr. Ford was born in 1860, and died in 1914, at the age of 54 years. He had lived in Hamilton for the past fifteen years, and had been engaged in the contracting business. He leaves a widow, and two children, Linda, 16, and Thomas of Carlyle, and two sisters, Mrs. Wm. LeBarre and Mrs. Alie G. Campbell. Mr. Ford was an active worker in Zion church and the church of the quarter.

WILL COST MORE

To Send Parcels to Our Soldiers at Front.

A notice was issued last Friday by the postoffice authority to the effect that, after all, all parcels sent to the members of the Canadian Expeditionary Force in France must be prepared at the rates applicable.

Parcels to be sent to the front must be mailed to France. All articles sent by mail to England, however, will be acceptable at the regular United Kingdom rates.

It is expected that the Canadian government will make the cost of mailing gifts to Canadian soldiers in France a little more than the cost of mailing to the same time it will facilitate the delivery of the same.

AUSTRIA CAN'T
PACIFY ITALY

(By Times Special Cable.)

London, March 15.—Authoritative denial was given to-day to a report that Emperor Francis Joseph of Austria, has refused to consider making territorial concessions to Italy, and of the Hippolite, to see if any arrangement could be made.

The Sultan Selen, formerly a German cruiser Gotha, undoubtedly is to be used as a transport. The ship has run aground eight yards long, said to day to have been caused by a Turkish mine.

YOUNG TURKS, DISLIKED, PREPARING FOR FLIGHT

(By Times Special Cable).
Paris, March 15.—The Hava News Agent publishes a despatch from its correspondent at Athens reading as follows:

"Young Turks, who are beginning to find their position difficult, and are preparing for a retreat, have sent their families to safety, continue their efforts

to convince the Turks that the Dardanelles are impregnable, but the inhabitants worried by omens, every morning they see the sun rise and sees the waves of the sea of Marmara, and of the Hippolite, to see if any arrangement could be made."

The Germans, a great number of whom have sent their families to safety, continue their efforts

to convince the Turks that the Dardanelles are impregnable, but the inhabitants worried by omens, every morning they see the sun rise and sees the waves of the sea of Marmara, and of the Hippolite, to see if any arrangement could be made."

GERMANS ADMIT ALLIED
AIRMEN ARE THE BEST

(By Times Special Cable).
London, March 15.—The correspondent of the Daily Mail telegraphs from Berlin: "The British success at Neuve-Chapelle and Epine, was due largely to the brilliant work of the allied airmen. Not a German gun was moved a foot of ground moved, while the British airmen having proved themselves."

"German officers in Bruges state their air service is hopelessly out-classed in numbers, daring and intelligence by the Allies. From the sea to Ypres the sky is swept by aeroplanes practically every day, the British and French airmen competing in a race of skill and daring, while the air past contests having proved disastrous."

The First of This Month.

There were many maps, from the map book of Marcus Lee. Orders for future delivery are now being booked.

At the same time it is understood that the concessions Austria was willing to make were so small by comparison that they did not "understand the meaning of the word."

FRENCH GAIN
IN ARGONNE

Enemy's Observation Point Taken and Made Good.

Heavy German Counter-Attacks Began Back.

Paris, March 14.—Official

advises from the front, describing the occupation of Vauquois in the Argonne region, by the French.

"The French troops took possession of the plateau and the village of Vauquois on the eastern outskirts of the Argonne forest, and were able to prevent the Germans from making use of these important strategic positions in the Argonne forest."

Vauquois lies in the high country not far from Chappay and Montzéon on a height overlooking the village of Vauquois, which is held by the Argonne forces.

This place served the Germans as a post of observation.

The French say the statement issued regarding these operations

"were thus able to direct the

operations of the French

army in the Argonne forest."

Vauquois lies in the high country not far from Chappay and Montzéon on a height overlooking the village of Vauquois, which is held by the Argonne forces.

This place served the Germans as a post of observation.

MESSAGES BY HELIOGRAPH TO TORONTO CAMP

sent by Mirror Flashes From the Head of the East End Incline Yesterday.

LIEUT. FEARMAN

produced the Successful Experiment in the Presence of Col. McLaren.

It is said to have been the longest distance heliograph message ever sent in Canada. It was flashed from station to Toronto yesterday. Lieut. Feorman, of this city, in charge of the signalling corps, the seventh regiment, now at Toronto, sent it from the head of the incline to the station to the east of the city, in the direction of the railway station, and the colonel expressed himself delighted with the success of the experiments.

Our action in the extreme left of the battle-field, and at the distance of 10 miles, was fully appreciated by the naked eye to those who had concentrated at the station on the mountain. In the case of the men of the signalling corps of the Ninety-first regiment established connections with the Toronto station, and the afternoon transmitted messages.

Lieut. Feorman and his aids are to be complimented for the work which was done yesterday, as they carried out their own initiative. A report of the experiment was sent to the War Office, and an interesting exhibition of 10,000 SOLDIERS TO PARADE.

The first heliograph message in Toronto, which is expected to take place through the streets of Toronto, will be sent to the front at Prenzlau Saturday afternoon of this week.

Col. W. A. McLaren and the staff officers, who made a tour of inspection of the third Canadian expeditionary force, will be present at the inspection this week. Georgetown is to be visited by Wednesday, and a tour of inspection will be made.

Officers commanding units in the division have been instructed to submit to the War Office, by the 15th of March, a report of British birth when they may have.

AN MILITIA CAMPS PLANNED. The rumoured likelihood of a general mobilisation of the Canadian militia has been denied, and it is said that it was the being on of the great and momentous Canadian campaign that caused as they do, numbers of the most experienced officers and instructors to leave the country for the militia owing to the demands of the men leaving for overseas, all of whom, it is said, have been banded together in the different national areas this year.

HOME GUARD

Cannot Parade at Old Armories—Other Arrangements.

The Home Guard has been holding parades and drills in the old armories, but are obliged to arrange for other places to meet, as the old armories are not available.

The following drills will be held for present:

2 Companies—Central Tuesdays, 7:45 p.m.

3 Company—King George Mondays, 7:45 p.m.

7 Company—Saturdays, 4 p.m.

8 Company—Mondays, 7:45 p.m.

THE MONTROSE A WRECK.

Berwick, France, March 14.—The German auxiliary cruiser Kron Prinz Wilhelm, which has about 100 crew members, was torpedoed and sunk on the western coast of Africa, according to a despatch from St. Petersburg, Russia, to the scene of the wreck of the Montrose. The ship, owned by the British and Canadian Railway Company, had been a trojan transport since it was built.

THE CANADA ASHORE.

At Fair Isle, one of the Shetland Islands, Scotland, reports that the Canada, a transatlantic freighter, was captured by the Germans.

The members of the Canada's crew ashore during the day, and the vessel was serious damaged in the face by the explosion of a pocket.

SEALING DISASTER VICTOT.

(By Times Special Wire.) New York, March 15.—Early in the day in the new subway under construction, a gas leak caused a fire which spread to the station, filled the streets with smoke, and sent up traffic on the surface. The gas was turned off and some of the adjacent surfaces burst, and drove hundreds of spectators to the bottom of the Kiron Prins Wilhelm near the Island of Fernando de Noronha, the eastern extremity of Brazil.

N. Y. SUBWAY FIRE.

(By Times Special Wire.) New York, March 15.—Early in the day in the new subway under construction, a gas leak caused a fire which spread to the station, filled the streets with smoke, and sent up traffic on the surface. The gas was turned off and some of the adjacent surfaces burst, and drove hundreds of spectators to the bottom of the Kiron Prins Wilhelm near the Island of Fernando de Noronha, the eastern extremity of Brazil.

THAW'S NEW PLAN.

New York, March 15.—Armenians, who are to be the first to be released from the camp of Harry K. Thaw, have agreed to the condition that he be sent to New Hampshire, where he will be held in custody, and the conspiracy to release him to the Supreme Court this afternoon.

It was reported that Thaw had agreed to establish his safety here, and thus prevent his return to New York.

He had instead of trying to obtain his freedom, to be a trial by jury.

Oh, keep me innocent, and make me great.—Matilda, Queen of Denmark.

STRUGGLE IN POLAND IS ENVELOPED IN MYSTERY

(Continued from Page 1)

Last night's Paris official announcement and the British press statement that had been reported: that the French were making themselves secure in new trenches in the Champagne, and that the Germans had been driven out of Westende had been effective.

GERMANS CHECKED.

London, March 15.—A despatch to the London Times from Paris says:

"The German advance in the Maubeuge region has been checked, and a German action on their front and flanks. The German columns moving up the Oruze and Omulou valleys have been checked."

"The enemy's infantry has failed to make headway in the plain north of Paris. The French are able to entrench, but during Friday night they were seized with panic and withdrew three miles with their guns and ammunition."

Our action in the extreme left of the battle-field, and at the distance of 10 miles, was fully appreciated by the naked eye to those who had concentrated at the station on the mountain. In the case of the men of the signalling corps of the Ninety-first regiment established connections with the Toronto station, and the afternoon transmitted messages.

Lieut. Feorman and his aids are to be complimented for the work which was done yesterday, as they carried out their own initiative. A report of the experiment was sent to the War Office, and an interesting exhibition of 10,000 SOLDIERS TO PARADE.

The first heliograph message in Toronto, which is expected to take place through the streets of Toronto, will be sent to the front at Prenzlau Saturday afternoon of this week.

Col. W. A. McLaren and the staff officers, who made a tour of inspection of the third Canadian expeditionary force, will be present at the inspection this week. Georgetown is to be visited by Wednesday, and a tour of inspection will be made.

COLORED MAN BLAMED ALL ON WHITE WIFE

But Like Adam of Old He Had
to Share Penalty of Dis-
obedience.

POLICE ON ALERT

Have Eyes open for Vagrants and
Street Corner Hangers—
Other Cases to-day.

In police court this morning Jacob
Miller, a colored man, and his white
wife, Anna, were charged with

keeping a house of questionable
repute at 21 Bayview street, Agnes Will-
son and Kathleen Vincent, one white
and the other colored, were charged
with being inmates, and Anthony
Orlando, Louis Mata and Michael Cap-
pare were charged with being fre-
quenters. Miller with tears in his
eyes stated that he was in total ig-
norance of what was going on in his
home, but his wife stated that her
husband forced her to keep the house
as he did not work.

The constable stated that Miller and his
wife were not married and for no
other purpose Miller and his wife

were fined \$50 and the inmates \$20 or two months

as the frequenters were all foreign-
ers.

The magistrate let them down with
a \$2 fine each.

Lloyd Slagle, charged a week ago
with being a vagrant, came up again before
the magistrate. Detective Cameron

stated that Slagle had been addic-
ted to drugs and was addicted to drag-
ging.

—Cristo Mite, 61 Elm street, has re-
ported to the police the loss of his
coat and trousers, which he had

left in a car and was unable to find

them. The constable stated that he

had received many complaints from

residents of Elm street that they

were being around in that vicinity. The
constable fined them five dollars each.

William Price, another vagrant, re-
ported from the police station that he

had a very good character and the
magistrate told him to seek a

position as soon as possible. His life

was too soft for Willie, he promised

to follow the magisterial advice.

Chased by Creditors—A man, identi-
fied as a gambler, was seen in Barton street

and Oak avenue, Daniel Gagnier, 261

Wellington street, and William

Fitzgerald, 100 King street, were

seen to be nervous and

had been around in that vicinity. The
constable fined them five dollars each.

On Saturday evening Constable

McBath stated that he saw William

Norton attempting to break in

at a rooming house in the New Con-
tinental Hotel.

—To-day Norton was charged with vagrancy and stated that he

had been around in that vicinity.

The constable stated that he

had received many complaints from

residents of Barton street that they

were being around in that vicinity. The
constable fined them five dollars and

was fined \$1 and allowed to go.

Courtland Smith was charged by his

wife, Mrs. Smith, with assault.

Neither as the constable stated that the

defendant was charged this morning.

For driving on the car tracks on

Barton street, St. George Forbes, a

teamster, was fined \$1.

COUNTY OIL

Some Objection Because Samples
Were Not Sent in.

Although county officials deny that
they are any such in their ranks, they
are persistent at the Court House that all
is not well in connection with the
awarding of the oil contracts.

—The County Council has
firmly refused to send in samples of their
eighty per cent. asphalt, and agreeing
to take no action in the case of the

contract tender not to the Com-
munity Wards.

Wards Douglas has not yet signed

the contract, and the whole question
and the award of the oil contracts is
left to the next meeting of the County

WORK FOR MANY MEN.

Advertisement is called to the ad-
vertisers in the classifieds to have

the Ontario Government's Im-

migration office place a large

number of experienced and
competent men for their service.

The applicants must have
satisfactory references.

W. H. McLean, director of
